

Employment Opportunity

Holland College's Industrial Technology and Trades Department (located in Summerside, Prince Edward Island, Canada) is currently seeking an energetic individual to instruct in our new **WIND TURBINE TECHNICIAN** program. This continuing position will commence June 2008.

Reporting to the Program Manager, the successful candidate will be responsible for the ongoing development and delivery of the **Wind Turbine Technician program** including developing learning materials; setting up of equipment and shop area; planning and delivering lectures and practical skill sessions; evaluating and monitoring student progress; setting up and monitoring on-the-job training sessions and maintaining liaison with industry while ensuring the program meets industry's needs. Additional responsibilities include the promotion of articulation agreements, applied degrees, and other educational advancing opportunities.

If you have experience working with wind turbines, have post-secondary education in the Electrical or Mechanical field, and have a desire to become involved in the development of wind energy education; please submit your resume to the address below. Strong oral and written communication skills; computer, project management and presentation skills; and a strong commitment to safety training are essential. Candidates must have the ability to; climb commercial scale turbine towers, work at high elevations and in confined spaces, and work in adverse weather conditions. Prior experience in teaching and curriculum development and/or Red Seal certification as an Industrial Electrician or an Industrial Mechanic (Millwright) would be considered assets.

Application Review Date: Monday, June 9, 2008

We offer competitive salaries and excellent benefits. To apply, send resume including education, work experience, and the names of three references (**Quoting Competition No. #08-10**) to the address below.

Only those selected for the next step in the selection process will be contacted.
